Gentlemen:- We are in receipt of your letter of the 31st ult. enclosing memorandum of same date, also order No. 1493 dated June 30th. We notice that you call for the Milling Cutters ordered to be Spiral Milling Cutters, and would say that all four Milling Cutters, which we carry in stock having faces less than 1" wide, are cut straight and not spiral. Please advise us if these will answer your purpose, or shall we make them to order and cut the teeth spiral?

In regard to the End Mills, we presume they are to be used on our No. 1 Universal Milling Machine. It is necessary to know this in order to send the right taper of shank, also advise if they are wanted right or left-hand.

Awaiting your reply, we remain Yours Truly,

Brown & Sharpe Mfg. Co.

S. I. All cutters to 1" straight
1" and over spiral
